EXAMPLES OF APPROVED SHOE STYLES

To maintain a consistent and uniform appearance, all footwear must adhere to the following guidelines:

- Shoes may be solid white, solid black, or a combination of black and white only.
- No other colors are permitted on any part of the shoe. This includes, but is not limited to, zippers, stitching, logos, branding, visible soles, laces, or any decorative elements.
- When standing flat-footed, the only visible colors on the shoes must be black or white.
- All shoes must be closed toe. No sandals or clog styles are permitted for safety.

Any shoes that include additional colors or non-compliant design elements will not meet dress code expectations.
